## Professional Resume

---

### Summary

- Senior engineer with 10+ years of experience in UI development, frontend architecture, and product delivery.
- Strong hands-on experience with React, TypeScript, Angular, JavaScript, Node.js, .NET, CI/CD, and cloud environments.
- Experience building scalable enterprise interfaces, micro frontends, reusable components, and user-focused platforms.

### Core Skills

- Frontend: React, TypeScript, Angular, JavaScript, HTML5, CSS3
- Backend exposure: .NET, Java, Groovy, Spring Boot, Node.js, MongoDB
- Platform and delivery: CI/CD, GitHub, Jenkins, GitLab, Azure DevOps, AWS, Azure, OpenShift
- Quality: accessibility, performance optimization, testing, responsive design, API integration

### Current Experience

- GEICO - Senior Engineer (.NET), Feb 2026 - Present
- Working on enterprise applications with .NET backend and React + TypeScript frontend.
- Supporting platform modernization, API integration, environment configuration, and production-focused delivery workflows.

### Prior Experience

- Capital One - Senior UI Engineer, Oct 2024 - Jan 2026
- Built and supported internal developer platform experiences with React, TypeScript, Node.js, AWS, CI/CD, and micro frontends.
